HOW TO NETWORK AT THE CAREER EVENT

Plan appointments with the organizations you want to talk to before the event starts. Use the event-app to plan these appointments to make sure you'll get in touch with the companies you like.

If you haven't made an appointment, you can still chat with a company through their company chatroom; or you can **connect** (use the blue button) with one of their representatives right away.

You can always also **start a 1-on-1 chat** directly with a company representative (see right).

If you still have questions after a webinar, you can always **start chat** with one of the speakers afterwards. Find them under Menu > Attendees and use the blue **start chat** button.

Want to **connect**? Hit the **star** icon at the top to add them as a connection!

After the event, you will receive an email with the contact information of everyone who you added as a **connection**. That way, you can continue your conversation with them after the event as well!
